HITECH Act Update: Meaningful Use, HIPAA 3.0 and the Implementation of the HITECH Act

About the Presentation:

The focus of the presentation will be on the new federal regulations implementing the HITECH Act, specifically the guidelines for achieving meaningful use for both eligible hospitals and physicians in order to obtain incentive payments. In addition, the presentation will include an overview of the proposed modifications to the HIPAA and Security rules.

About the Speaker:

DAVID SCHOOLCRAFT provides counsel to hospitals, physician groups, health information networks, informatics and software companies on matters involving structuring technology initiatives, contract negotiation, and technology implementation issues. He has extensive experience in structuring and negotiating complex health information technology arrangements, including those involving electronic health records and practice management systems. He also regularly provides advice on data privacy and security issues under HIPAA. Dave is a member of the Ogden Murphy Wallace, PLLC with a practice focus on the representation of health care and information technology clients.
